1. Senator Underwood requested that I discuss with a [redacted] regarding some information in her possession. [redacted] came to see me and I asked [redacted], to be present. She is currently working for a [redacted] who is sponsoring an international movement of women against war. [redacted] was primarily interested in whether this organization was all right so that she could continue to work for [redacted] as she was considerably concerned about the international implications which she considered might be Communistic. She showed us several documents which had been received from abroad by [redacted]. We informed [redacted] that her problem was primarily one for the FBI and that she should discuss the matter with them.

2. [redacted] Chief of the Map Division, CIA, stated that he had received a call from Mr. Randall of the Bureau of the Budget stating that the Foreign Affairs Committees of the House and Senate were deciding whether to consider at this session legislation in support of the Pan-American Institute of Geography and History, which has been the subject of previous correspondence by this Agency. At [redacted] request I checked the status of this matter with Mr. Crawford, of the House Foreign Affairs Committee staff, who stated that they were presently considering whether to take the matter up at this session. I informed Mr. Crawford that while we ~~did not~~ would not push for any such legislation, it would be of some assistance to CIA if it were given favorable consideration.
